Personal Profile

I am a PhD student in Computer Science at the University of Bologna, Italy, and a PhD Fellow with Luna Rossa, the Italian America's Cup sailing team, having won the doctoral scholarship they fund. I earned my Master's degree in Computer Science at the same university with 110/110 cum laude in July 2025. My doctoral work focuses on Multi-Agent Reinforcement Learning (MARL), specifically on how the agents take decisions in competitive scenarios. Beyond academics, I am passionate about all kinds of sports, particularly climbing, and reading.

Work Experience

Luna Rossa Team

PhD Fellowship

Cagliari, Italy

July 2025 - Present

- Awarded PhD scholarship funded by Luna Rossa, the Italian America's Cup sailing team

Ducati Corse MotoGP Team

Research Fellowship

Bologna, Italy

July 2024 - July 2025

- Won research scholarship in collaboration with Ducati Corse MotoGP Team
- Developed an advanced computer vision framework to analyze rider posture during MotoGP races

CINECA

Software Engineer

Bologna, Italy

April 2023 - October 2023

- Developed and maintained secure authentication systems serving over 50 Italian universities

Education

University of Bologna

PhD in Computer Science

Bologna, Italy

November 2025 - Present

University of Bologna

MSc in Computer Science

Bologna, Italy

September 2023 - July 2025

University of Bielefeld

MSc in Intelligent Interactive Systems

Bielefeld, Germany

September 2024 - March 2025

Double Degree program between the University of Bologna and the University of Bielefeld.

University of Bologna

BSc in Computer Science and Management

Bologna, Italy

September 2019 - March 2023

Kaunas University of Technology

Erasmus+ Studio experience

Kaunas, Lithuania

August 2021 - February 2022

Publications

From Reasoning to Code: GRPO Optimization for Underrepresented Languages

Pennino, Federico, Bianca Raimondi, Massimo Rondelli, Andrea Gurioli, and Maurizio Gabbrielli

Theory and Practice of Logic Programming, 2026, pp. 1–14. doi: 10.1017/S1471068426100489

BlenderRAG: High-Fidelity 3D Object Generation via Retrieval-Augmented Code Synthesis

Rondelli, Massimo, Francesco Pivi, and Maurizio Gabbrielli

arXiv preprint arXiv:2605.00632 [cs.CV], 2026

A Computer Vision Framework for MotoGP Rider Posture Estimation
